

Science Week @ St John's

11-15th March 2024

We celebrated Einstein's 145th birthday with every child participating in our 'Dress as a scientist' day

We were impressed with the creativity and originality of both staff and children 😊

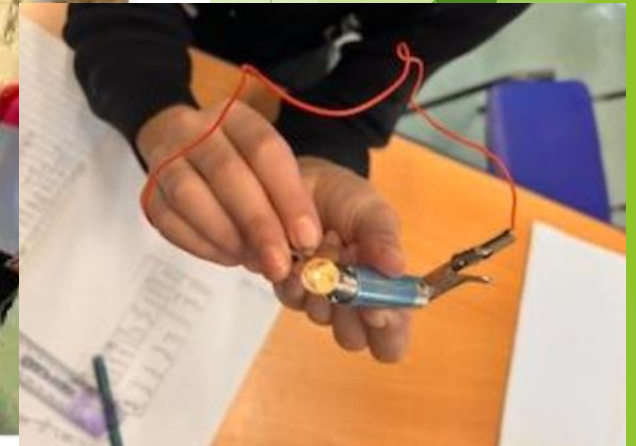

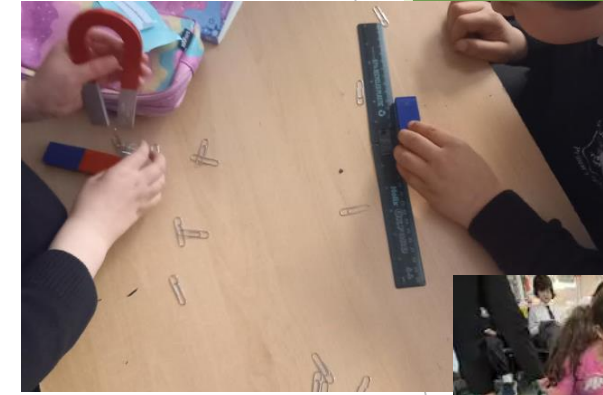

Can you spot *Katherine Johnson*?

Jane Goodall? *Albert Einstein*?

We completed exciting practical science in class, helping to expand our scientific skills...

Reception to Year 6 enjoyed an exciting workshop and made their own 'slime'

Years 1-6 loved the thrilling science assembly - complete with enormous bubbles and real fire!

We are already excited about next year's Science week!
